SUBJECT: EPC Schedule November 19-25

In anticipation of Monday's meeting (2 p.m., White House Situation Room), I am forwarding a copy of the proposed EPC schedule for the upcoming weeks.

The agenda items set out in the schedule arise in the following contexts:

1. Textiles: Likely final action on the textile bill in the next few days has triggered a USTR request that the EPC again review the textile issue with respect to the Administration's post-veto strategy and the MFA negotiations that must be completed mid-year 1986.

2. New Trade Round Objectives: The GATT Contracting Parties meeting occurring in Geneva November 25-29 will determine whether or not a preparatory committee will be established to set an agenda and organize a new trade round. USTR will likely review the status of this effort and indicate what the U.S. reaction will be if no preparatory committee is formed.

3. Antitrust: Carryover from last week's agenda.

4. Section 301 Deadlines: On December 1, the deadlines that were set by the U.S. for action by the EC and Japan to resolve the canned fruit and leather issues expire. What will the Administration's response be if no resolution occurs?

5. 406 Corporation: (Meeting may not occur) Issue is whether Administration should intercede in the creation of a

Section 406 corporation by the Federal Home Loan Bank Board which had been set up in order to consolidate bad debt in a super S & L.

6. Canadian Lumber: Revisiting the Canadian lumber question in light of continued Congressional interest. Future of U.S.-Canadian Free Trade Area talks may hinge on resolution of this issue.
